A sample setup for appearing in the Online End-Semester Examination

The image below shows the recommended setup for taking the online examination:

Ensure that your laptop, power bank, and mobile device are fully charged, and that you have access to an uninterrupted power supply (such as an inverter). You may use a desktop PC instead of a laptop, provided it is equipped with a functioning webcam and microphone.

Candidates must also keep an Android mobile phone or a second device ready. This device should have a working camera and microphone, which will be used to capture the room view from the side or back, in addition to the laptop/PC being used for the exam.

Please install the UCanAssess app from the Google Play Store using the following link:

<https://play.google.com/store/apps/details?id=com.ucanapply.ucanassess>

If you do not have a proper mobile stand to position your phone on the side, you can easily create one using a simple method demonstrated below, requiring only a knife and a regular paper cup.

Step 1 : Paper Cup + Knife

Step 2 : Mark a 1 cm thick slot on the bottom of the cup

Step 3: Cut the slot using the knife

Step 4 : Prop up the mobile in the cut slot and adjust if required.

a. What will happen if my Device 2 gets disconnected for any reason?

If Device 2 gets disconnected during the examination, your test will be paused temporarily. This will not result in automatic cancellation of the examination. You will be able to resume the test only after Device 2 is successfully paired again.

In such a case, Device 1 will display a prompt asking you to pair Device 2 again. Click on **“Click to Pair Second Device”** and follow the same pairing process that you completed at the beginning of the examination.

Please note that all such incidents are recorded by the system. Repeated disconnections or unnecessary delays in reconnecting Device 2 may be flagged for review. The Invigilator may contact or warn you, and if any suspicious activity is observed, the examination may be stopped permanently.

 5. Additional permissions
4. Remove blocked or allowed sites manually.

After clearing the permission settings, reopen the examination portal and attempt the test again. The system will prompt you once more to allow camera access. Please ensure that camera permission is allowed this time to continue with the examination.

c. What will happen if Device 1 gets disconnected during the examination? Will my test be canceled?

If Device 1 gets disconnected temporarily due to internet or system issues, reconnect immediately and log in again. The system may ask you to repeat the verification process before resuming the examination.

Your previously saved answers will remain save in the system and your examination will not be canceled automatically.

d. Where can I find the Username and Password for login?

Your login credentials have been sent to your registered email address and registered mobile number. Please enter the Username (Enrollment Number) and Password carefully without any typing mistakes while logging in to the examination portal.

e. When I try to log in to the test on Device 1, I get the error shown below. What should I do?

The test cannot be opened in multiple browser windows or tabs simultaneously. Please ensure that all other browser tabs and windows are completely closed before attempting the login process again on Device 1.

f. I am not able to proceed beyond the “Camera Check” on Device 1. The screen displays an error as shown below. What should I do?

This issue may occur due to any of the following reasons:

The candidate’s camera is currently being used by another application such as **Zoom, Google Meet, Microsoft Teams, etc.**

An antivirus or security software installed on the system is restricting camera access. The candidate’s camera, camera driver, or related hardware/software is not functioning properly.

To resolve this issue, the candidate should: Close all applications that may be using the camera. Temporarily disable any antivirus or security software restricting camera access.

Log out from the online examination portal. Log in again and repeat the verification and camera check process.

g. While performing the Camera Check process, I receive the following error: What should I do?

“There was an error while uploading your photo. The difference between the time and current time is too large.”

This error occurs when the system date, time, or time zone on your device is incorrect. This issue is more commonly seen on PCs or laptops.

To resolve the issue:

Set the correct **Time Zone** to **India Standard Time (IST)**.

Enable **Automatic Date & Time** or **Auto Sync Time** in your system settings.

Restart the browser if required and attempt the process again.
